Junioren WM in Hong Kong

Although two competitors managed to beat seeds in the main Championship, the Panel decided that the award for Tuesday should go to 18 year old Marcel. In his Classic Plate match he recovered from two games to one down and then seven - one down in the fifth, before beating German team player Oliver Kowalski.

Two match balls were also saved in this exciting 66 minute match, in which he used all his reserves to climb a little Alp of his own!

Not surprised about his comeback was Swiss team coach Marcel Schranz, who has seen Marcel fight for every point and chase every lost cause, many times before.

Now he's already a winner.
